

About the commands and stories for 2020 and beyond:

We are making some changes to the commands and stories in 2020.

1. We sense that we need to make sure we are listening to the Holy Spirit and doing what He says to the seven ekklesias in Revelation. Therefore, the first four months will focus on the individual command to the seven churches in Revelation 1:17 – 3:22. (*Manga Majesty* can be used with the commands if desired.)
2. Starting in May, we will pair commands with the story of redemption starting in Genesis and continuing through the entire Bible. The foundation of the stories is from the *Manga* graphic Bible series published by NEXT and Tyndale (*Mutiny, Melech, Messengers* are the Old Testament; *Messiah, Metamorphosis, Majesty* are the New Testament).

The continuity of the Gospel and the integrity of the whole of Scripture became obvious when we discovered that Jesus' commands can be seen throughout the Bible. Jesus said He came to fulfill the Law and the Prophets and His commands are part of that fulfillment.

Systematically going through the Bible enables newer disciples to see the whole picture and discover how Jesus fits into God's big story. The *Manga* books are great for children, teens, and adults, as well as those who may not be proficient readers. The *Messiah* book is also a great outreach tool as people who see it are curious about this eye-catching graphic book.

It is not necessary to have a *Manga* set, but it will greatly enhance your study and understanding. If you desire to order a set or individual books, you can purchase them at Amazon or NEXTManga. See the links below.
