

Discipleship - Nurture - Accountability = DNA

Looking Back (Accountability)

- **Begin with prayer**
- What was the commandment from last week?
- What did trying to obey/observe this command reveal in you or teach you?
- What is one specific thing we can do this week to continue obey/observe that commandment?
- How has our time and relationship with the Lord been this past week? (explain)

Looking Forward (Disciple)

- Have each person recite the current command (if some don't all have it memorized take time to memorize it).
- How does this command relate to loving God, loving others or making disciples?
- What is the context of this command? (who is He talking to, why is He talking to them, what is He talking about)
- Discuss how or why this command might be difficult or challenging to obey?
- Do you have any fears, doubts or resistance about this command?
- Discuss how we can specifically begin to live out this command more regularly in our life.
- Can you think of an example of Jesus keeping this command?

Looking Inside (Nurture)

- How have we been doing in our inner life/private world?
- What are we thankful for?
- Is there anything going on in your life that you would like or need to share?
- How can we pray for one another this week? (**Take time to pray here**)
